

## MAP GROWTH (英語習熟度) テスト結果報告書 (2023-24) NWEA MAP GROWTH TEST RESULTS (2023-24)

### GRADE 7 中学1年 and GRADE 8 中学2年

#### Reading Test Results for English

##### ACHIEVEMENT PERCENTILES

Most are below the mean (50<sup>th</sup> percentile).

##### COMPARISONS

**Grade 7** **Class Average RIT: 215**  
Your grade 7 students have scores above the national average (214).

**Median Percentile: 50**

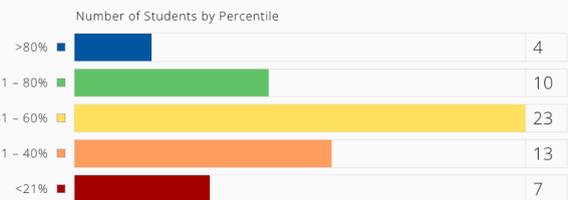

**Grade 8** **Class Average RIT: 208.4**  
Your grade 8 students have scores below the national average (218).

**Median Percentile: 28**

#### Language Usage Test Results for English

##### ACHIEVEMENT PERCENTILES

Most are below the mean (50<sup>th</sup> percentile).

##### COMPARISONS

**Grade 7** **Class Average RIT: 215.1**  
Your grade 7 students have scores above the national average (213).

**Median Percentile: 51**

**Grade 8** **Class Average RIT: 209.9**  
Your grade 8 students have scores below the national average (216).

**Median Percentile: 38**

## GRADE 9 中学3年 and GRADE 10 高校1年

### Reading Test Results for English

#### ACHIEVEMENT PERCENTILES

Most are at or above the mean (50<sup>th</sup> percentile).

#### COMPARISONS

**Grade 9** **Class Average RIT: 218.2**  
Your grade 9 students have scores below the national average (219).

**Median Percentile:** 47

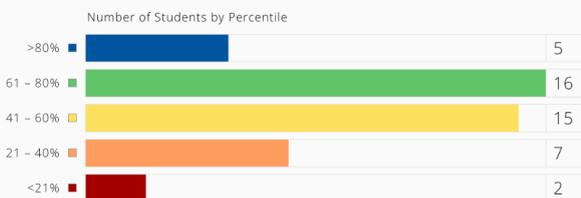

**Grade 10** **Class Average RIT: 226.2**  
Your grade 10 students have scores above the national average (221).

**Median Percentile:** 62

### Language Usage Test Results for English

#### ACHIEVEMENT PERCENTILES

Most are at or above the mean (50<sup>th</sup> percentile).

#### COMPARISONS

**Grade 9** **Class Average RIT: 219.3**  
Your grade 9 students have scores above the national average (217).

**Median Percentile:** 52

**Grade 10** **Class Average RIT: 222.4**  
Your grade 10 students have scores above the national average (219).

**Median Percentile:** 66

### Notes 備考:

**Question: What is the RIT Scale? 質問: RIT基準とは何ですか?**

- When students finish their MAP Growth test, they receive a number called a RIT score for each area they are tested in (reading, language usage, math, or science).  
MAP Growthテストが終了すると、テストされた各分野(読解、言語使用、数学、科学)ごとにRITスコアと呼ばれる数字が表示されます。
- This score represents a student's achievement level at any given moment and helps measure their academic growth over time.  
このスコアは、その時点での生徒の習熟度を表し、時系列での学力の伸びを測定するのに役立ちます。
- The RIT scale is a stable scale, like feet and inches, that accurately measures student performance, regardless of age, grades, or grade level. Like marking height on a growth chart, and being able to see how tall your child is at various points in time, you can also see how much they have grown between tests.  
RITの基準は、フィートやインチのような安定した基準で、年齢、学年、レベルに関係

## Katoh Gakuen Gyoshu Junior and Senior High School BILINGUAL PROGRAM

なく、生徒の成績を正確に測定することができます。成長図に身長を記入し、様々な時点での子供の身長を確認できるように、テストの間にどれだけ成長したかを確認することも可能です。

- The higher the RIT score, the more achievement the student has in the subject. RITのスコアが高いほど、その科目での達成度が高いことを意味します。

### Question: What is a percentile rank? 質問: パーセンタイルランクとは何ですか？

- A percentile rank indicates how well a student performed in comparison to the students in the specific norm group, for example, in the same grade and subject. パーセンタイルランクは、特定の規範グループの生徒と比較して、例えば同じ学年、同じ科目の生徒の成績がどの程度であったかを示すものです。
- A student's percentile rank indicates that the student scored as well as, or better than, the percent of students in the norm group. パーセンタイルランクは、特定の規範グループの生徒と比較して、例えば同じ学年、同じ科目の生徒の中で、どの程度の成績を修めたかを示します。
- For example, a student scoring at the 35th percentile scored as well as, or better than, 35 percent of students in the norm group. It also means that 65 percent of the students in the norm group exceeded this score. 例えば、35パーセンタイルの得点の生徒は、標準グループの生徒の35パーセントと同じか、それ以上の得点であったことを意味します。また、標準グループの生徒の65%がこのスコアを上回ったことを意味します。
- The percentile rank is not a percentage of items the student answered correctly. パーセンタイルランクは、生徒が正解した項目の割合ではありません。
